Grand Total	Rs 7840

NOTES—First Sheet

WD 02552—GPB—5,000—10-7-30

water supply to the Jatra ground

File No. of 193 6-7 General and Revenue Secretariat

Of the expenditure of oil pumps etc, it is stated only half of it viz Rs 829 will be borne by the temple and the other half by the Hewajis also for which also the engine and pumps will be made available.

3 The total non-recurring cost to be debited to the temple funds will therefore be (Rs 6182 + Rs 829) Rs 7011.

4 The recurring charges for working the pumps for ten or twelve days will be Rs 211/- which is also debitable to the temple funds. In all Rs 7011 + Rs 221. for the whole Scheme.

5 The D.C. Mysore st has stated that the jatra for next year will be held from the 10th to 19th January 1937, and that the arrangements proposed for giving immediate water supply during the occasion are to work out the distribution system as an instalment of the whole Scheme. The expenditure to be borne in the current year is therefore estimated to be;

Rs 2782/- for distribution system
Rs 221 for working the pumps
Rs 3003/- or Rs 3100/ allowing small hire for the engine and pump. The Khatu-dassis of the temple are reported to have agreed to the entire Scheme and also to the expenditure of Rs 3100 being incurred for the purpose during the current year.

OFFICE OF THE MUZRAI COMMISSIONER IN MYSORE,

Bangalore, 10th December 1936.

GENERAL REV. SECRETARIAT 586 DEC 1936 MUZRAI BRANCH

FROM

K. V. ANANTARAMAN, ESQ., B.A.,
Muzrai Commissioner in Mysore.

To

SE Venkatesa Iyengar, Esq.,
Secretary to the Government of His Highness the Maharaja of Mysore,
Department.

SECRETARY. 18 DEC. 1936

SIR,

Water Supply to the Jatra grounds at Chunchinkatte, Krishnarajnagar Taluk.

I have the honor to forward herewith a copy of letter No.H.636/36 dated 11-12-1936 together with its enclosures received from the Deputy Commissioner, Mysore District, requesting sanction to the proposals made by the Bureau of Sanitary Engineering re. the above.

2. The entire scheme including a moiety of the cost of crude oil engine and Ram Pump with accessories is estimated to cost Rs 7,011 plus a recurring expenditure of Rs 221 a year for working the pump for 10 or 12 days during the jatra. As the current year's jatra will commence from 10th January 1937 and as there is not sufficient time to work out the scheme fully this year, it is proposed to work out the distribution system as an instalment of the whole scheme, the Water Supply Department lending for a small hire the engine and pump and cistern, and to supply chlorinated water through the distribution pipes. Excluding the hire to be paid to the Water Supply Department, this is estimated to cost about Rs 2,620, as noted in the margin. The proposal is agreed to by the Dharmadarsis and the cost is proposed to be met from the funds of the temple. The Deputy Commissioner who has inspected the jatra grounds with the Superintendent, Vani Vilas Water Works, the District Health Officer, and the Sub Division Officer recommend that the scheme may be sanctioned.

Distribution and Contingencies..	Rs 2,194-7-0
Proportionate Establishment, Tools and Plant-charges..	" 204-0-0
Working the Pump..	" 221-0-0

3. It is necessary that protected water supply sh
for all the jatras, as the canals and river from which the water
usually drawn are subject to tremendous lot of pollution. A printed
copy of the scale of income and expenditure of the Sri Ramadevaru templ
at Chunchinkatte, is enclosed. The scale provides for an expenditure of
Rs 4,791-3-2 against an income of Rs 7,371-2-6, leaving a reserve of
Rs 2,579-15-4 a year. A cash balance of Rs 9,420-2-6 and bonds of several
denominations of the face value of Rs 32,387½ were available at the credi
of the temple on 1st November 1936. As there will be no difficulty in
meeting the non-recurring and the small recurring charges from the funds of the temple, I recom-
mend that the project may be sanctioned, the work for the current year
being limited to the items noted above. The favour of immediate orders
is solicited.

I have the honor to be,

Sir,

Your most obedient servant

Muzrai Commissioner.

HL

ecember 1956 received from the Sub Division Officer, Mysore, regarding the estion of protected water supply to Chunchin'k ttc jatre in March 1957, and o state as follows:-

The proposal of the Bureau of Sanitary Engineering consists of the following ems:-

(1)	Sinking a well	Rs. 1,000
(2)	Pressed steel tank	" 2,400
(3)	Distribution pipes etc.	" 2,733
	Total ..	6,133
(4)	Portable Crude Oil engine and pump with accessories half of 1,0	Rs. [illegible]

(the other half to be borne by the local Jatra [illegible] for the scheme, a petrol engine and pump will be made available).

The charges for sinking the pump pot [illegible] well [illegible] will be Rs. 201. his is the full scheme.

For the next jatra to be held from 6th to 12th January 1957, the officer ts proposed to carry out only the distribution system and the head of the ol scheme. The water supply department will have to provide the engine and pump and cistern will [illegible] department. [illegible] will be ntroduced in the cistern and [illegible] distribution system. The expenditure to be borne in the current year is, therefore, Rs. 2,733 only for istribution system and [illegible] charges [illegible] which [illegible] Rs. 3,100 (allowing small hire for the engine and pump). The Chairman has considered the matter in detail [illegible] recommended [illegible] the entire scheme and to the expenditure of Rs. 3,100 [illegible] for giving protected water supply to the jatra this year. The [illegible] proposed to be carried out as pro- intended, Tamil Nadu Water Works, Executive Health Officer [illegible] Sub Divi- sion Officer, [illegible] recommendation [illegible] that [illegible] The cost may be met by the sale of investments in bonds proposed by the Dharmadarsi and the Sub Division Officer.

The detailed estimates and sketch received from the Executive Engineer countersigned by the connected records are enclosed for kind perusal.
